

The request for help with Jonathon Segalls radio aerial has produced two responses to me, one from Carl Ord at Moss Bros. with a fax showing four different aerials to be fixed to the side of the car that he can obtain if we need, tel. 01274 735537. I can supply a photocopy of that fax should anyone want one. The second was from Alastair Naylor himself saying he had recently obtained one for a Morris Minor that was the same as those they had fitted to the Naylor and he can obtain those at around £15.00 so tel. 01274 585161.

Freda.

Dear Freda,

Reference your mention of rediscovered NEW Naylor Manuals at the factory - I used an original BL manual as the basis so the lettering of sections goes back at least 40 years. I chose to leave it the same but wrote all the new material, it did require changes and these were organised through a friend and any new illustrations. All the new bits were jigsawed into the original format.

Alan Staniforth.

i get the distinct impression that Shirley has overbooked the Christmas party this year!
